## **Packing and Shipping:**

### **Packaging**

Each excavator is thoroughly inspected and cleaned before being packaged. The excavator is then wrapped in protective materials such as plastic or bubble wrap to prevent any damage during transportation.

The packaged excavator is then placed in a strong and durable cardboard box or wooden crate, depending on the size and weight of the machine. The box or crate is sealed with heavy-duty tape to ensure the excavator is secure and protected during shipping.

For larger excavators, special packaging and crating services may be utilized to ensure safe and secure transportation.

### **Shipping**

Used CAT Excavators can be shipped globally to our customers. We work with reliable and reputable shipping companies to ensure timely and safe delivery.

For domestic shipping within the United States, we offer various shipping options such as ground, air, and expedited shipping. Customers can also arrange for their own shipping if desired.

For international shipping, we handle all necessary paperwork and customs clearance to ensure a smooth delivery process. We also offer door-to-door shipping options for our international customers.

Once the excavator is shipped, customers will receive a tracking number to monitor the progress of their shipment. Our customer service team is also available to provide updates and assistance throughout the shipping process.

In the rare event that any damage occurs during shipping, we have a dedicated team to handle and resolve any issues promptly.

We are committed to providing the best packaging and shipping services for our customers to ensure a hassle-free experience when purchasing our Used CAT Excavators.
